Chemical Product and Company Identification

CO 901 Janesville Ave. P.O. Bux 901 Fort Alkinson, WI 53538-0901

**CHEMTREC 24 Hour Emergency** Phone Number (800) 424-9300 For laboratory use only. Not for drug, food or household use

GLYCERIN Product Synonyms Glycerol

Section 2 Hazards Identification This substance or mixture has not been classified as hazardous according to the Globally Harmonized System (GHS) of Classification and Labeling of

Chemicals. Signal word: None required Pictograms: No symbol required Target organs: None known

GHS Classification: None required

GHS Label information, Hazard statement: None required Precautionary statement: None required

PARTY OF THE PARTY Supplemental information:

Do not breathe mist/vapours/apray. Do not get in eyes, on skin, or on clothing. Wear protective gloves/protective ciothing/eye protection/face protection. Wash hands thoroughly after handling. Get medical attention if you feel unwell.

UP05/66 KI 03909CC SA 09552 KI 03910CC SA07847 SA 0955 1

Ca Prop 65: This product does not contain any chemicals known to the State of California to cause cancer or reproductive toxicity.

Chemical Name	CAS#	*	EINECS	
Glycarin	58-81-5	100%	200-289-5	
	4			
		1 8		

## Section 4 First Aid Measures

INGESTION: Call physician or Poison Control Center Immediately. Induce vomiting only if advised by appropriate medical personnel. Never give anything by mouth to an unconscious person

INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention

EYE CONTACT: Check for and remove contact lenses. Flush thoroughly with water for at least 15 minutes, lifting upper and lower eyelids occasionally. Get immediate medical

SKIN ABSORPTION: Remove contaminated clothing. Flush thoroughly with mild soap and water. If imitation occurs, get medical attention.

## Section 6 Fire Fighting Measures

Suitable Extinguishing Media: DO NOT USE WATER. Carbon dioxide, dry chemical, dry sand, alcohol foam

Protective Actions for Fire-fighters: In fire conditions, wear a NIOSH/MSHA-approved self-contained breathing apparatus and full protective gear. Use water sprey to keep fire-exposed containers cool

Specific Hazards: During a fire, kritisting and highly toxic gases may be generated by thermal decomposition or combustion.

## Section 6 Accidental Release Measures

Personal Precautions: Evacuate personnel to safe area. Use proper personal protective equipment as indicated in Section 8. Provide adequate ventilation.

Environmental Precautions: Avoid runoff into storm sewers and ditches which lead to waterways

Containment and Cleanup: Remove all sources of ignition. Absorb with inert dry material, sweep or vacuum up and place in a suitable container for proper disposal. Wash splii area with some and water

Precautions for Safe Handling: Read label on container before using Do not wear contact lenses when working with chemicals. Keep out of reach of children. Avoid contact with eyes, skin and clothing. Do not inhale vapors, spray or mist. Use with adequate ventilation. Avoid ingestion. Wash thoroughly after handling. Remove and wash clothing before rouse

Conditions for Safe Storage: Store in a cool, well-ventilated area away from incompatible substances. Keep away from ignition sources

Exposure Controls / Personal Protection Section 8

Chemical Name Exposure Limits:

ACGIH (TLV) TWA: 10 mg/m<sup>3</sup> (mist)

OSHA (PEL) TWA: 5 mg/m<sup>3</sup> (respirable fraction)

NIOSH (REL) None established

Supercedes: November 4, 2015

Engineering controls: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower and fire extinguishing material. Personnel should wear safety glasses, googles, or faceshield, lab coat or apron, appropriate protective gloves. Use adequate ventilation to keep airborne concentrations low.

Reaptratory protection: None should be needed in normal laboratory handling at room temperatures. If misty conditions prevail, work in turne hood or wear a NKOSHAMSHA-

Physical & Chemical Properties

Appearance: Clear, colorless liquid, Odne: No odor

Odor threshold: Data not available pH: Approximately 7.0

Melting / Freezing point: 18°C (64°F) Bolling point: 290°C (554°F) Flash point: 177°C (351°F) COC

Evaporation rate ( Ether = 1): >1
Flammability (solid/gas): Data not available Explosion limits: Lower (Upper: Data not available Vapor pressure (mm Hg): 0.01 mbar @ 20°C Vapor density (Air = 1): Data not available Relative density (Specific gravity): 1 2607 (25/25°C) Solubility(les): Complete

Auto-ignition temperature: 400°C (752°F) Decomposition temperature: Data not available Viscosity: Data not available Moiscular formula: HOCH2CHOHCH2OH

Partition coefficient: 2.6 calculated

Molecular weight: 92,10

Stability & Reactivity Section 10

Hazardous polymerization: Will not occur Chemical stability: Stable

Conditions to avoid: Excessive temperatures and heat. Absorbs moisture from the air.

incompatible materials: Strong oxidizers

Hazardous decomposition products: Poisonous Acrolein furnes

Section 11 Toxicological Information

Acute toxicity: Oral-rat LD50 | 25,000 mg/kg Skin corrosion/irritation: Dermai-rabbit - 18,700 mg/kg
Serious eye damage/irritation: Rabbit - practically non-irritating
Respiratory or skin sensitization: Data not evallable

Germ cell mutagenicity: Data not available

Carcinogenity: Data not available

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC

OSHA. No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity: Data not available STOT-single exposure: Date not available STOT-repeated exposure: Data not available Application hazard: Data not available

Potential health effects:

Inhalation. Inhalation of mist are irritating to the respiratory tract.

Ingestion. Ingestion is considered to be a very low hazard. Skin. Skin contact shows no significant irritation. Not absorbed through the skin

Eyes: May cause slight eye imitation

Signs and symptoms of exposure: See Potential health effects above

Additional information: RTECS #: MA8050000

Ecological Information

Toxicity to fish: Low loxicity to aqualic organisms. LC50 (96 hour) fish >5,000 mg/l

Toxicity to daphnia and other aquatic invertebrates: EC50 (24 hour) Daphnia magna >10,000 mg/l

Toxicity to algae: No data available

Persistence and degradability: No data available Bioaccumulative potential: No data available

PBT and vPvB assessment: No data available Mobility in soil: No data available Other adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal

Section 13 Disposal Considerations

These disposal guidelines are intended for the disposal of catalog-size quantities only. Federal regulations may apply to empty container. State and/or local regulations may be different. Dispose of in accordance with all local, state and federal regulations or contract with a licensed chemical disposal agency.

Transport Information (US DOT / CANADA TDG)

Shipping name: Not Regulated

UN/NA number: Not applicable Marine pollutant: No Hazard class: Not applicable Packing group: Not applicable Reportable Quantity: No Exceptions: Not applicable 2012 ERG Guide # Not applicable:

Section 15 Regulatory Information

A chemical is considered to be listed if the CAS number for the anhydrous form is on the inventory list

DSL NDSL TSCA CERLCA (RQ) RCRA code Component Listed Not listed Listed Not listed Glycerin
